Megasealed

BALCONY, KITCHEN AND BATHROOM EPOXY SEALANT

MegagROUT MG11

New to the market in 2012, MegagROUT MG11 is a unique two-part Epoxy system exclusive to Megasealed that makes it possible to stop leaking showers and balconies without the need to remove tiles. MG11 was engineered especially for leaking balconies for its strength to resist building movement and degradation of quality from weather, chemicals and water over time, although it is effective for both interior and exterior applications.

MG11 is suitable for balconies, bathrooms, kitchens, laundries and all tiled areas including commercial kitchens.

Benefits of MegagROUT MG11

- ✓ Colour consistent and you can choose from a selection of MegagROUT MG11 colours
- ✓ Stain and chemical resistant
- ✓ Quick drying, serviced area can be used the next day
- ✓ Minimal smell and mess during application
- ✓ Not porous like other sealants, 0.0001% absorption rate makes it more waterproof than a ceramic or vitrified tile
- ✓ 100% solids Epoxy system
- ✓ High performance
- ✓ 25 year written product warranty

-  MG11 Cream
